WARNING

TO PREVENT FIRE OR SHOCK HAZARD DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

LIGHTNING FLASH WITH ARROWHEAD SYMBOL -
within an equilateral triangle, is intended to alert the user to the presence of uninsulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

EXCLAMATION POINT - within an equilateral triangle, is used to indicate that a specific component shall be replaced only by the component specified in that documentation for safety reason.

The following label has been affixed to the unit, listing the proper procedure for working with the laser beam:

CLASS 1 LASER PRODUCT LABEL -

This label is attached to the place as illustrated to inform that the apparatus contains a laser component.

WARNING LABEL INFORMING OF RADIATION -

This label is placed inside the unit. As shown in the illustration. To warn against further measures on the unit. The equipment contains a laser radiating laser rays according to the limit of laser product of class 1.

SAFETY INSTRUCTIONS

1. **READ INSTRUCTIONS** - All the safety and operating instructions should be read before the appliance is operated.
2. **RETAIN INSTRUCTIONS** - The safety and operating instruction should be retained for future reference.
3. **HEED WARNINGS** - All warnings on the appliance and in the operating instructions should be adhered to.
4. **FOLLOW INSTRUCTIONS** - All operating instructions should be followed.
5. **WATER AND MOISTURE** - The appliance should not be used near water, for example, near a bathtub, washbowl, kitchen sink, laundrytub, swimming pool or in a wet basement.
6. **VENTILATION** - The appliance should be situated so that its location or position does not interfere with its proper ventilation. Do not place on bed, sofa, rug or similar surface that may block the ventilation openings, in a built-in installation, such as a bookcase or cabinet that may impede the flow of air through the ventilation openings.
7. **HEAT** - The appliance should be situated away from heat sources such as radiators, stoves, or other appliances (including amplifiers) that produce heat.
8. **POWER SOURCE** - The appliance should be connected to power supply only of the type described in the operating instructions or as marked on the appliance.
9. **GROUNDING** - Precautions should be taken to ensure that the grounding means of an appliance is not defeated.
10. **POWER CORD PROTECTION** - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them.
11. **POWER LINES** - An outdoor antenna should be located away from power lines.
12. **OBJECT and LIQUID ENTRY** - Care should be taken so that objects do not fall and liquids are not spilled into the enclosure through openings.
13. **ESD WARNING** - The display does not function properly or no reaction to operation of any the control may due to the electrostatic discharge. Switch off and unplug the set. Reconnect after a few seconds.
14. **DAMAGE REQUIRING SERVICE** - The appliance should be serviced by qualified service personnel when:
 - a. The power-supply cord or plug has been damaged.
 - b. Objects have fallen into, or liquid has been spilled into the appliance enclosure.
 - c. The appliance has been exposed to rain.
 - d. The appliance has been dropped, or the enclosure damaged.
 - e. The appliance does not appear to operate normally.
15. **SERVICING** - The user should not attempt to service the appliance beyond that described in the user operating instructions. All other servicing should be referred to qualified service personnel.

Notes:

- a. Dirty or scratched CD may cause a skipping problem. Clean or replace the CD.
- b. If an error display or malfunction occurs, disconnect the AC cord and remove all the batteries. Then turn the power back on.

BEFORE OPERATION

Notes: CONCERNING COMPACT DISCS.

Since dirty, damaged or warped discs may damage the appliance, care should be taken of the followings items:
Usable compact discs. Use only compact disc with the mark shown below.

BEFORE CONNECTION

CAUTION

1. Turn off the power of all equipment before making connections.
2. Read instructions of each component you intend to use with this appliance.
3. Be sure to insert each plug securely. To prevent hum and noise, do not bundle the connection cords of speaker cord.

CONNECTION

AC POWER

You can power your appliance by plugging the AC power cord at the back of the appliance into a wall AC power outlet. Check that the rated voltage of your appliance matches your local voltage.

BATTERY INSTALLATION

Insert 2 x "AAA" size batteries into the battery compartment. Be sure that the batteries are inserted correctly to avoid damage to the remote control. Always remove the batteries when the remote control will not be used for a long period of time, as this will cause leakage to the batteries and subsequently damage to your set.

Notes:

- Use batteries of the same type. Never use different types of batteries together.
- If the distance required between the remote control and the appliance decreases, the batteries are exhausted. In this case replace the batteries with new one.

SENSOR WINDOW OF THE RECEIVER

- Even if the remote control is operated within the effective range, its operation may be impossible if there are any obstacles between the appliance and the remote control.
- If the remote control is operated near other appliances which generate infrared rays, or if other remote control devices using infrared rays are used near the appliance, it may operate incorrectly.

RADIO OPERATION

GENERAL OPERATION

1. Set the "FUNCTION" selector to "RADIO" mode.
2. Select desired band by using the "BAND" selector.
3. Adjust radio frequency to your desired station by using the "TUNING" control.
4. Adjust the "VOLUME" control to the desired level.

FM / FM-STEREO RECEPTION

- Set the "BAND" selector to FM mode for MONO reception.
- Set the "BAND" selector to FM ST. mode for FM STEREO reception. The Stereo indicator light up to show FM ST. mode.

FOR BETTER RECEPTION

FM - This appliance has a FM antenna located at the rear cabinet. This wire is completely unraveled and extended for better reception.

AM - This appliance is equipped with a built - in directional ferrite AM antenna. Rotate the appliance to get better reception.

FUNCTION AND OPERATION EXPLANATION

Explanation for each setup

1). SYSTEM SETUP

The setup structure is as following:

• TV SYSTEM

There are four types of TV system setting in this system: NTSC, PAL60, PAL and AUTO. Select a different setting according to your TV system.

• SCREEN SAVER

There are two modes of ON or OFF in this unit. Under the ON mode, if the stop state is more than four minutes during DVD function, the SCR, screen saver picture appears. There are initial pictures on the TV screen during CD disc playing. The purpose of SCR SAVER is to protect the display screen from damage.

• VIDEO

- A. INTERLACE-YUV: when you use Y, Cb, Cr cable to connect this unit to the TV set, please select this item.
- B. P-SCAN YPBPR: when you use Y, Pb, Pr cable to connect this unit to the TV set, and convert the TV system to progressive scan, please select this item.
- C. S-VIDEO: Choose this setting if your DVD is connected to a TV with S-VIDEO cable.

• TV TYPE

Select the screen format to fit your TV screen.

NORMAL/PS (4:3 Pan Scan): Select this screen when this system is connected to normal TV set. The wide-screen picture displays on the full screen, but some parts of the video picture are cut off automatically.

NORMAL/LB (4:3 Letter-box): Select this screen when this system is connected to normal TV set. When display wide-screen picture, there are black strips on upper and bottom.

WIDE (16:9): To select this screen when this system is connected to wide-screen TV set.

NORMAL/PS

NORMAL/LB

WIDE

Note: Some DVD may select "NORMAL/LB" automatically, but not "NORMAL/PS" and vice versa.

FUNCTION AND OPERATION EXPLANATION

• PASSWORD

The initial setting for this item is "Password lock-in" that means you cannot carry out the "RATING" selection or change the password at present. If you want to carry out RATING setup, you must first enter the initial password "0000" by using the number keys on the remote control, then press ENTER button to confirm; To change the password, you need to enter the initial password first, then enter the new password (four numbers).

• RATING

The rating feature is a rating limit system, like movie ratings. It works with DVD discs that have been assigned a rating. This helps you control the types of DVDs that your family watches.

There are 3 rating options: NO ADULT, KID SAFE, VEIWI ALL.

Notes: If the password option is locked, you cannot set the ratings limit; the rating limit does not work when the password option is unlocked.

• DEFAULT

Choose this option to resume all the setup options to default settings.

2). LANGUAGE SETUP

-After entering OSD LANGUAGE setting, select your desired OSD language by using the direction button, then press ENTER button to confirm it. There are three modes for you to select: English, German and French.

-After entering AUDIO LANG setting, select your desired AUDIO language by using the direction button, then press ENTER button to confirm it. There are eight modes for you to select: Chinese, English, Japanese, French, Spanish, Portuguese, Latin and German.

-After entering SUBTITLE LANG setting, select your desired SUBTITLE language by using the direction keys, then press ENTER button to confirm it. There are eight modes for you to select: Chinese, English, Japanese, French, Spanish, Portuguese, German, off.

-After entering MENU LANG setting, select your desired MENU language by using the direction button, then press ENTER button to confirm it. There are eight modes for you to select: Chinese, English, Japanese, French, Spanish, Portuguese, German and Latin.

Note: if the disc does not have the language you select, it can be played only with the disc menu language recorded.

FUNCTION AND OPERATION EXPLANATION

3). AUDIO SETUP

The setup structure is as follows:

-AUDIO OUT

Press the direction button to select the audio out mode you want, then pressing the ENTER key to confirm it. There are three kinds of audio out mode in this unit: SPDIF/OFF, SPDIF/RAW and SPDIF/PCM. To set the audio out according to your audio output connection mode, for instance, if you want the audio out from the SPEAKER terminals, the audio out must be set to SPDIF/OFF; if you want the audio out from the COAXIAL OUT, it must be set to SPDIF/RAW or SPDIF/PCM. SPDIF/RAW this means that if the audio input signal from the disc being playing in this unit is 5.1CH or 2CH, then the audio output is 5.1CH or 2CH. SPDIF/PCM means that no matter the audio input signal from the disc being played in this unit is 5.1CH or 2CH, the audio output is always 2CH.

4). VIDEO SETUP

The setup structure is as follows:

Press the direction button (▲ ▼) to move the slide, you can carry out the BRIGHTNESS, CONTRAST, HUE and SATURATION setting separately.

5). SPEAKER SETUP

The setup structure is as follows:

-DOWNMIX

Use the (▲ ▼) buttons to move the scroll and adjust the saturation.

6). DIGITAL SETUP

The setup structure is as follows:

-OP MODE

To select OP mode among LINE OUT, RF REMOD.

-DYNAMIC RANGE

To select the dynamic range between Full to off.

-DUAL MONO.

To select DUAL MONO among stereo, mono L, mono R and Mix mono.
